

Journée thématique couplage champ proche - photonique

vendredi 7 décembre 2018

Thème 1: Present: coupled systems AFM/Optique in practice - Salle de réunion (10:00 - 12:30)

time	[id] title	presenter
10:00	[4] Correlative atomic force and photonic microscopies and spectroscopies operational schemes to study the structure and dynamics of membrane assemblies	M. COSTA
10:30	[5] Couplages AFM et Microscopie photonique en biologie : Applications, Avantages, Inconvénients	M. JANEL
11:00	[6] Combining light and force to study amyloid at the nanoscale	Mme FLORS, Cristina
11:30	[7] Simultaneous AFM force mode and florescence detection for mechanotrasduction studies	M. PUECH
12:00	[11] High-speed AFM coupled with spinning disk microscopy	M. RICO
