

# Introduction Intel OneAPI

*mercredi 6 juillet 2022 10:30 (2 heures)*

The presentation will provide an overview of the oneAPI initiative and Intel products for heterogeneous computing. It will then cover the conceptual differences between coding for FPGAs and coding for CPUs/GPUs and describe the development flow specific to FPGA platforms.

In the second part of the presentation, some basic oneAPI design techniques for FPGA to be used in the hands-on lab will be detailed.

**Orateur:** PAOLINI, Maurizio (Intel)
