

Journées Julia et Optimisation

vendredi 6 octobre 2023

Optimisation non-linéaire - Jean-Baptiste Say (09:00 - 12:30)

time	[id] title	presenter
09:00	[2] Solving optimal control problems with Julia	CAILLAU, Jean-Baptiste GERGAUD, Joseph
10:00	[16] Latest developments for mixed-integer nonlinear programming in Artelys Knitro	DUFOUR, Maxime
10:30	Café	
11:00	[12] Julia Smooth Optimizers: Streamlined Research and Recent Developments of the Ecosystem	SIQUEIRA, Abel Soares
11:30	[27] Convex mixed-integer optimization algorithms with Boscia.jl and applications	BESANÇON, Mathieu
12:00	[30] Synergy between Macaulay and Sum-of-Squares frameworks	LEGAT, Benoit
