

# Journées Julia et Optimisation

## jeudi 5 octobre 2023

### Julia & Scientific Computing - Jean-Baptiste Say (14:00 - 17:30)

time	[id] title	presenter
14:00	[9] Data clustering with Julia	BRÉCHETEAU, Claire NAVARO, Pierre
14:30	[6] Shine of multiple dispatch: the `Copulas.jl` case.	LAVERNY, Oskar
15:00	Café	
15:30	[13] From non-differentiability to discrete geometry: B-differential, hyperplanes and matroids	PLAQUEVENT-JOURDAIN, Baptiste
16:00	[3] Seleroute.jl, a generic package for network-routing optimisation	CUVELIER, Thibaut
16:30	[29] Improving the accuracy of LP storage models: a systematic approach using XPORTA.jl	ELGERSMA, Maaïke
17:00	[28] Dionysos.jl: a Modular Platform for Smart Symbolic Control	BANSE, Adrien
