

# Quantstack, Evolution of the Jupyter Ecosystem and its Applications in Robotics

*mardi 17 juin 2025 16:15 (45 minutes)*

In the first half of this presentation, we will provide an overview of how the Jupyter ecosystem has evolved in recent years. Beyond its widely popular notebook application, Jupyter has transformed into a comprehensive framework for creating domain-specific, browser-based interfaces. In the second half, we will showcase various applications of this within the robotics domain. We will conclude with an open discussion to explore questions and share thoughts.

**Orateur:** Mme PAREDES, Isabel (Quantstack)

**Classification de Session:** Session 1
